El Diario de la Marina, which professes to voice the sentiments of the navy, accredits President Cleveland with having struck a heavy blow at the actual violators of the recent neutrality proclamation, but again complains that those primarily responsible for the fitting out and dispatching of the filibustering expeditions—the president,

NO LOVE FOR AMERICANS.

Spanish Troops in Cuba Exhibit Much Vindictiveness.

Santiago de Cuba, Sept. 29.—Vice-Consul Hyatt has entered an energetic protest in the case of Peter E. Rivery, an American planter, maltreated by Spanish guerrillas on his coffee estate, La Esperanza, near St. Luis, on the road to Bayamo.

During his protest to the Spanish officer in command of the guerrillas against the destruction of his fences and property by the latter's forces, Rivery was abused and led out to be summarily shot. The timely intervention of a Spanish scout, who pleaded with the officer and vouched for Rivery's neutrality, alone saved him. Even then the guerrillas were so enraged that in defiance of the officer's orders, they brutally beat Rivery with their machetes and before leaving his plantation tore down the American flag waving over his residence, warning him not to display it again. All Americans, the guerrillas said, were either rebels or spies, and if not openly aiding the revolution were doing so secretly, consequently they ought to be shot wherever found by the Spanish troops.

Troops from Spain continue to enter the port daily, bringing new reinforcements. About 27,000 men have been disembarked. Many of these are veterans of former campaigns here and elsewhere and consequently are expected to achieve better results than the recruits formerly brought over.

NEW YORK REPUBLICANS.

New York, Sept. 29.—The republican mass meeting at Carnegie hall Monday night was a great success. The gathering in the immense hall was a representative and notable one. Besides Frank S. Black, candidate for governor, and Timothy L. Woodruff, candidate for lieutenant-governor, were Garret A. Hobart, vice-presidential candidate, Chairman Hanna, Thomas C. Platt, ex-Senator Gibbs, Congressman Odell and fully 700 well-known city and state republicans. Lord Chief Justice Russell of England and a party of friends occupied one of the boxes.

Gen. Benjamin F. Tracy, ex-secretary of the navy, presided and opened the meeting with a rousing speech. He then introduced Congressman Black, who was received with cheers, hand-clapping and band playing. While the candidate for governor was speaking he was listened to attentively, and when he made a telling point the immense audience applauded vigorously.

At the conclusion of Mr. Black's speech Gen. Tracy introduced Candidate Woodruff to the assemblage. He was enthusiastically greeted, and when the excitement subsided the nominee for lieutenant-governor spoke briefly. He, too, was rewarded with liberal applause throughout his speech.

The next speaker was Senator Henry Cabot Lodge of Massachusetts. He was given a warm reception, and as his speech progressed he was enthusiastically cheered.

At the conclusion of Senator Lodge's speech there was another outburst of applause, after which Edward Lauterbach spoke briefly, bringing the meeting to a close.

GENERALS SPEAK AT DUBUQUE.

Large and Enthusiastic Crowd Greeted the Party in Iowa.

Dubuque, Iowa, Sept. 29.—Gens. Alger, Howard, Stewart and Sickles and Corporal Tanner arrived from the west before daylight Monday morning, and even at that early hour were welcomed.

on Golf hill, the site of the new post-office, an open space covering an area of several square blocks. The crowd packed into this space was tremendous. After a great effort Mr. Bryan finally reached the stand, but just as he was about to begin his address the electric lights went out and the vast throng was plunged into darkness.

Great excitement prevailed for a time, and the nominee threatened to leave the stand, but while the hubbub was at its height the light was restored, the police relieving the creaking stand of some of its surplus freight and Mr. Bryan spoke.

The speech had to be curtailed to enable the party to catch the train for Newark, which left the station at 8:37 o'clock. It was a drive of fully two miles through the residence portion of the city, and the quiet of the route formed a striking contrast to the scene which greeted the nominee when the place was reached. The hall is a vast structure, originally built for the saengerfest, and having a capacity of 10,000. Every nook and corner was jammed. When Mr. Bryan arrived there was not an inch of space left except a few yards on the stage.

Immediately after closing his speech at Newark Mr. Bryan returned to New York, where he hurried to his hotel and retired for the night. During today he will seek needed rest and try to recruit his voice for the big Tammany hall meeting in the evening. At midnight he will leave for West Virginia, but what his further progress will be from that state has not yet been positively fixed.

Milton, Sept. 29.—Hon. W. C. Silvertorn, candidate for governor on the combination, demo-pop ticket, spoke in Goodrich hall Friday afternoon, instead of in the Park as advertised. The democratic senatorial convention, which had been in session at Milton Junction attended in a body thus giving added numbers to the audience and making the attendance about two hundred, nearly one half being republicans who were curious to see an aspirant for gubernatorial honors. Mr. Rogers, of Fort Atkinson, delivered one of his characteristic bombastic attacks on the republican party. Mr. Silvertorn is not a brilliant campaigner by any means but impresses his hearers as a man who fully believes in the doctrine he enunciates. He spoke for an hour or more many of the audience leaving the hall before the speaker concluded his remarks. We trust that our opponents, who have been operating the republican party for supporting corporation lawyers for official honors, will now desist, as their candidate, Mr. Silvertorn, is one of that class. The quickest and one of the largest, if not the largest threshing job accomplished in Rock county this summer was done by Steele Bros. of Evansville, on the farm of E. W. Fisher in the town of Rock. From 140 acres, 6,200 bu. of oats were harvested, the entire job was done inside of four days. Mr. Fisher, who is one of Rock County's most prominent farmers, is highly elated over such a yield and is now only waiting for a rise in price.

Tired Feeling is exceedingly common and dangerously significant. It is a warning which must be heeded, or, as with the express which fails to regard the danger signal, disaster must follow. It is a sure indication of thin, weak, impure blood. It is certain admonition that the blood is not properly feeding the nerves, tissues and organs of the body. Weak, nervous,

That's what a prominent lady said the other day to some friends of hers.

It's as good in taste as the best home made bread, and in quality it's far ahead of any other bread. Quaker Bread is different in every way from other breads. It contains better substances and is made from the healthful part of the wheat kernel. Our wagons will stop every day at your house if you wish, or order at

HON. S. C. CARR VISITS SPAIN

Recruits For The Cuban Army Are But Mere Boys

S. C. Carr saw some of the workings of the Spanish military system while in Cordova. He writes to The Gazette:

"They are going to send 40,000 soldiers to Cuba this month. Some of them are mere boys, pressed into the service against their will. We have not been molested although we have had to register at hotels where we are from and where going."

From Spain Mr. Carr sailed for Naples, visited Pompeii and Vesuvius.

"After lying beneath ashes and pumice stone for 1,817 years," he writes, "the buried city is slowly coming to light. The work of excavation has been in progress thirty years and two hundred men are now employed. It surprises the American to see how well preserved the 1,800-years-old pillars are, and how perfect the narrow, stone-paved streets."

"We started from Pompeii for the eight mile trip to the top of Vesuvius, making four miles by carriage, three miles on horseback and one mile on foot. The mile on foot was very hard work. No path but climbing over stone, dried pumice and ashes. Arriving at the crater, 4,000 feet high, we went near enough to look down into it and see the fire, smoke, ashes and stone that are being constantly belched forth and scattered down the mountain. It was a grand sight but I should not care to climb the mountain to see it again. There is a railroad that runs within a mile of the top, but it was not running the day we went up."

Mr. Carr reached Rome Sept. 8, and expected to work north from there through Italy and Switzerland.

MAGAZINES OF THE MONTH.

October Review of Reviews.

"The Three Strategic Chiefs of the Presidential Campaign," i. e., the chairmen of the national committees of the three leading parties, are the subjects of character sketches in the October Review of Reviews. Murat Halstead writes about Mr. Hanna; Willis J. Abbot describes Senator Jones, of Arkansas, the hope of the "popocrats"; and Marion Butler, the energetic and able young leader of the populist forces, is portrayed by Carl Snyder. These sketches are terse and vigorous, the writer in each case being in full touch with his subject.

Scribner's For October.

The October number of Scribner's Magazine is string in American subjects of immediate interest, including in its contents a powerful and satirical essay E. L. Goodkin on "The Expenditure of Rich Men" and a broad and thoughtful discussion of the great problems that underlie "The Government of New York," by Col. V. F. Greene; a paper on the way in which "The New York Working Girl" has organized to take care of herself; a sympathetic essay on the work of Olin Warner, the eminent American sculptor who recently died; and a description of the picturesque and romantic features of the Light House system along the North Atlantic coast.

The Shoes Are Here.

We spoke a few days ago of receiving word from a shoe manufacturer with whom we placed a large order, that our shoes had been shipped, and would probably reach here within a few days. They came yesterday, and, if we may appear conceited, are the prettiest line of fall and winter shoes for men in the city. Twelve different styles came in their invoice, and any one of them draws forth admiration from those who have already inspected them. There is a style, a grace about our goods not found in the usual everyday stock. That's why we have the name of being the up-to-date shoe men of the city. We want you to come in and look over our late arrivals, even though you don't buy. Our large ad. tells about some of them. A. Richardson Shoe Co.

Advertising what you have not got or what you don't do is worse than not advertising at all. You can't well be too careful about this. Make your ads. strictly true in letter and in spirit. I believe that the majority of business men do this now, but as it is the most important thing about advertising, it will bear repeating and reiterating.

A motto for working men and women:
"A dollar's worth of dollar, for a dollar's worth of work."

BISMARCK'S IDEA AND THE AMERICAN FARMER.

The man who reads between lines finds in Bismarck's suggestion, that America try free coinage to see how it works, the very strongest argument against such an undertaking.

Bismarck has never been suspected of excessive generosity in dealing with other nations and his proposal for a trial of the free silver system in this country is prompted by a thorough realization that we would be the only sufferers from its ruinous consequences. But how would such an experiment affect the United States?

Last year Germany bought \$90,615, 900 worth of American merchandise and paid for it in money or exchanges worth 100 cents on the dollar in gold. Under free silver here, she could exchange her gold for silver and buy the same quantity of goods for little more than \$15,000,000. The purchasing power of her capital would be practically doubled by a free coinage act in this country, and the American farmer would be selling to the German consumer two bushels of wheat or two barrels of pork for the price he now receives for one.

Naturally enough Bismarck is willing and even anxious that America should try the free silver experiment. It would make American provisions cheaper throughout the German empire than they had ever known before.

THE FARMERS AND THE DRONES.

Mr. Bryan wants the farmers to stand together against the "drones who produce nothing but laws." Mr. Bryan was a lawyer of the most unproductive "free-lance-sale" sort until he went to congress. In congress he helped populists to introduce fifty billion dollars of appropriation bills and to put barley on the free list. Mr. Bryan is a drone who has cost farmers more than all the honey in the Nebraska hive is worth.

Bryan is said to believe that John R. McLean would contribute more liberally than Sewall has done, and to favor the dropping of both Sewall and Watson and the placing of McLean on the ticket. But McLean isn't a populist; he's a millionaire, too.

Dr. Talmage was a true prophet when he said: "The God who hath been on the side of this nation since the Fourth of July, 1776, will see to it that this nation shall not commit suicide on Nov. 3, 1896."

We gather from the somewhat unique position of Senator Hill of New York, that although he refuses to trust either Bryan or the Chicago platform he thinks it safe for the people to do so.

If they could forget the tariff bunco of '92 there would be more people willing to be convinced by democratic silver promises this year.

Pitchfork Tillman says: "We may lose Wisconsin." Substitute "will" for "may" and Tillman would for once have told the truth.

Mr. Bryan's definition of a financier—"a man who can attend to his own business"—lets him and many of his followers out.

Bryan's farewell address to Washington wasn't in the same class with Washington's farewell address.

Why doesn't Tom Watson go to Maine and say it to Sewall's face?

Has Located George Taylor.

Kansas City, Mo., Sept. 29.—According to a story told the local police by Joseph Rowe, a railroad man who just arrived from the territory, George Taylor, the escaped murderer of the Meeks family, has been located in the Indian Territory by United States Marshal Copeland. Copeland, Rowe said, can place his hands upon the Carrollton murderer, and will do so as soon as assured of the reward.

TO WELCOME A MOB.

Authorities of a Louisiana Parish in Readiness.

Amite City, La., Sept. 29.—Great excitement prevails here owing to a report that a mob of 500 armed men would come here and demand of Judge Reed the return to this place of John Johnson, colored, the murderer of the Cotton family, now confined in prison in New Orleans for safe keeping. Alarming reports were also in circulation as to the treatment that would be dealt out to parish officials in the event of a refusal to have the murderer returned here immediately. Sheriff McMichael has telegraphed to Governor Foster, asking for troops to suppress a threatening mob. In response to the sheriff's request Governor Foster ordered a company of troops from Hammond to Amite City.

Injured in An Explosion.

Rushville, Ind., Sept. 29.—Miss Tillie McKee turned on the natural gas in the kitchen stove last evening and applied a match. The flow of gas blew out the match and soon all parts of the stove were filled with the escaping vapor. Mrs. McKee, entering the kitchen a few minutes later, struck a match and stuck it in the stove. An explosion followed. Mrs. McKee and her daughter were knocked down by a piece of flying iron, but not hurt much.

Mausoleum for Mackay's Son.

Louisville, Ky., Sept. 29.—Colonel M. Muldoon has returned from New York, where he entered into a contract with John W. Mackay, the California millionaire, for the building of a magnificent mausoleum in Greenwood cemetery, New York, over the grave of Mr. Mackay's son. It is to be the most elegant structure of the kind in the United States, and will cost \$100,000.

Mortgages for Millions Filed.

Boston, Mass., Sept. 29.—Two mortgages aggregating \$10,500,000 given by the Standard Rope and Twine Company of New York, one to the Manhattan Trust Company of New York for \$3,000,000 and another to the Central Trust Company of the same city for \$7,500, were recorded Monday in the Suffolk registry of deeds.

To Meet Together.

Washington, Sept. 29.—A. P. Taylor, secretary of the Association of National Silver Clubs, has announced that the convention of clubs which is to meet in St. Louis on Oct. 3 will meet in joint convention with the National Association of Democratic Clubs. W. S. McKean will act as representative of the silver party in St. Louis.

Embezzler Covin Arrested.

Wheeling, W. Va., Sept. 29.—R. N. Covin, of Dubuque, Iowa, wanted at that place for forgery committed there last February, by which he secured \$14,000, was arrested here Monday. He agreed to go home without the formality of requisition papers, and is now on his way under charge of detectives. He has \$11,000 still in his possession.

Plumbers and Steamfitters Meet.

Milwaukee, Wis., Sept. 29.—The seventh annual convention of the United Association of Journeymen Plumbers, Gasfitters, Steamfitters and Steamfitters' Helpers was opened here Monday, with about fifty delegates present. At the afternoon session the annual report of the secretary was read and received.

Still Rainbound.

Cincinnati, Ohio, Sept. 29.—Rain which set in Sunday morning has been continuous for fifty hours. Playing on Sunday was out of the question, and so, of course, it was yesterday. On the assumption that it will not rain forever, the game between the Chicago and Cincinnati was postponed until today.

Fifteen Hundred Go to Work.

Troy, N. Y., Sept. 29.—The resumption of work at the Burden Iron works is the cause of rejoicing in a great many families in this city. While the full force of men is not at work, there are in the neighborhood of 1,500 employed. It is thought the works will be put on full force very soon.

Porter for Governor of New York.

New York, Sept. 29.—Wilber F. Porter of Watertown was Monday nominated by the democratic state committee for governor to take the place of John Boyd Thacher. Frederick C. Schraub was nominated for lieutenant governor to take the place of Mr. Porter. The nominations were made unanimously.

combed by a large number of citizens. They remained in their special car until 9:30 o'clock, when they were escorted to Washington park where they spoke for two hours in behalf of McKinley. During the early morning special trains brought in hundreds of excursionists, and it is estimated that not less than 10,000 people were in line. On the platform at the park, besides the generals and other distinguished visitors, were Senator Allison, Congressman D. B. Henderson and Gov. Drake.

Buckner Reaches Louisville.

Louisville, Ky., Sept. 29.—General Buckner, the gold democratic nominee for vice-president, returned last night from Philadelphia, feeling none the worse for his long journey. General Buckner left today for Munfordsville to visit his family. He said he did not know anything definite about his future appointments, and he thought he would next be assigned to Alabama and Missouri. When asked about the report that he and General Palmer were to stump Illinois General Buckner said he had heard nothing of it.

Gold Democracy's Plans.

Chicago, Sept. 29.—General Palmer and General Buckner, candidates of the gold democracy for president and vice-president, will probably be in Chicago to witness the great parade that is to be held on Oct. 9. Yesterday John P. Hopkins of the national executive committee completed arrangements for a monster mass meeting at the Auditorium, which is to be held under the combined auspices of the national and state committees Oct. 8.

OLD AND NEW IDEAS.

THE OLD WAY.

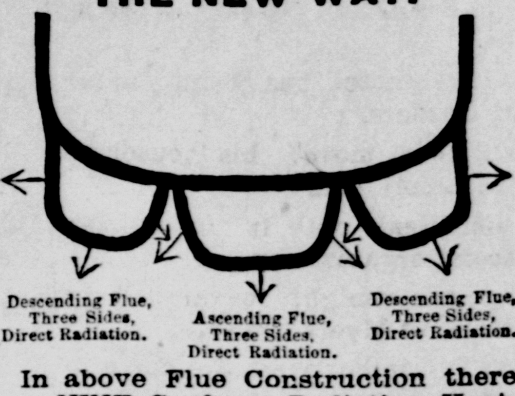

In above Flue Construction there are Four Surfaces Radiating Heat.

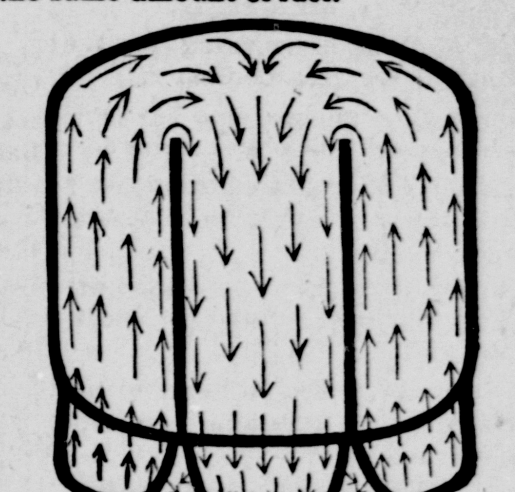

Above cut illustrates the arrangement of Bottom Flues in nearly all base burners, showing the Heat is not Equally Distributed.

THE NEW WAY.

In above Flue Construction there are NINE Surfaces Radiating Heat, Increasing the Heating Capacity with the same amount of fuel.

The above Bottom Flue Construction causes the Heat to go to the Outer Surfaces, Largely increasing the Heating Capacity and Economizing in Fuel.

The "Favorite" Base Burner has More Heating Capacity and is the Most Economical Stove ever made. Why? Because it has about ½ more Radiating Surface as compared with same sizes of other base burners, and is Mounted and Fitted Perfectly.

Public Meeting to Be Held at the Hall

A great treat is in store for those who will avail themselves of it on next Wednesday evening at the public meeting of the Good Templars, to be held in the Court Street M. E. church. Rev. W. H. Clark, the grand chief templar of the state, who will be one of the speakers, is acknowledged by his audiences both in Wisconsin and Pennsylvania, where was his former field of labor, to be one of the best speakers on the platform today. E. W. Chaffin, past grand chief templar, another of the speakers, is a leading lawyer of Waukegan, and attorney for the Wisconsin Central R. R. His fame as a forceful speaker is world wide among the Good Templars. His wit is irresistible. No one ever goes to sleep during his addresses. O. W. Blain, Past Grand Chief Templar of Michigan, vies closely with Mr. Chaffin in style of address and the dispensing of wit and practical good sense. Every one is delighted with him who has the good fortune to hear him. Capt. J. F. Cleghorn needs no introduction to a Janesville audience. His songs have won their way to the hearts of many of the people here, as well as in every other city, village and hamlet in the state.

FLIP-FLOP TACTICS

HUMILIATE GEN. DOE

STATEMENT CONCERNING THE ASSISTANT SECRETARY.

Declared To Be Thoroughly Honest in His Sound Money Belief—Although a Shareholder in the Recorder, the Controlling Interest is in Other Hands.

General J. B. Doe's friends resent the way he is made to appear by the Recorder. It will be remembered that people who knew that the assistant secretary of war was one of the principal owners of the Recorder read his letter declaring against free silver with surprise. They made up their minds at last that he was trying to get in position for an emergency.

If by any stupendous combination of impossibilities Bryan should be elected General Doe could be happy, it was figured in, his capacity as owner of the Flip-Flop.

The anticipated defeat of Mr. Bryan by a two thirds majority on the other hand would give General Doe great joy in his capacity as sound-money office-holder under Mr. Cleveland.

An explanation was given out that showed how fully the ambiguity of the position was recognized. The Recorder's flop from the earnest advocacy of sound money to the support of the inflation movement, it is said, has caused General Doe much humiliation.

"General Doe is thorough-going and determined in his opposition to free coinage," said one of the general's close friends. "The fact that he is a stockholder in the Recorder Printing Company has led to the charge that the Recorder's support of Bryan has his covert encouragement. This is not so. He has been humiliated greatly by the Recorder's course—but is powerless to alter it. While he owns a large slice of Recorder stock he does not own a majority of it. The balance of power is not in his hand, as everybody familiar with the affairs of the paper knows. General Doe is outspoken, in Washington against Bryan and the whole Bryan scheme, being in complete accord with the administration in this respect."

BEAUTIFUL ARRAY OF ROSES—Remarkable Luxuriance of Bloom at the Linn Street Green House.

A winter of roses is ahead, there is such a showing of Brides, Bridesmaids, Mermets, Meteors, "Jacks" and "Teas" at the Linn street green houses of Misses Hodson & Long, as the city never before saw. The winter roses are coming into profuse bloom this week, and the rose house is a beautiful sight in the forenoon.

The houses have been greatly enlarged this summer. The enlargement makes it possible to devote one house wholly to roses and one to chrysanthemums. The big "single blossom" plants will be in bloom in about a month, and a wonderful array of "mums" is promised.

During the summer special provision has been made for floral designing. Close connection with the best of Chicago green houses has given Misses Hodson & Long many valuable suggestions on fine floral work for weddings and receptions and on memorial pieces. The fact that flowers freshly cut hold their beauty so much longer than the flowers that have been wilted by shipping, is greatly in their favor in all such work.

AS JOHN C. SPOONER SEES IT

It took seventeen civilized nations to demonize silver, and yet they say that one nation can demonize it and keep it at a ratio of 16 to 1 with gold, if—if it can take all the silver in the world and pay \$1.29 an ounce for it. If—why, what nonsense.

Mr. Bryan talks of plutocrats. There is infinitely more danger from the bonanza silver mine owner who buys a way into the senate and sits there to vote a market for his product, which is to be paid for by the people.

If the free and unlimited coinage of gold and silver will keep them at a parity, why didn't it do it in all the years when free coinage prevailed? Why has it never done it in any nation in the world?

As Cleveland grows older and takes account of the many honors that have fallen to his lot he will see that the refusal of the Chicago convention to endorse him is by all means the greatest.

WOMAN'S WORLD.

A DETROIT WOMAN WHO HAS MASTERED THE EMBALMING ART.

Change in Employment of Women—Wife on a Wheel—Gail Hamilton and Kate Field—The Countess of Wemyss—The Craze for Gray.

Mrs. J. J. Duby has the proud distinction of being the only genuine, all round woman undertaker in Detroit. Mrs. Duby graduated and received her diploma from the Champion College of Embalming, located this season at Toledo. The lady has undergone a long course of study and practice in the art of embalming, having studied first under the tuition of her brother, William

De Saffery of this city, and subsequently under various embalmers of Detroit. She has now been pronounced clearly proficient by the men who conduct the Champion School of Embalming and will enter upon a practical career as an undertaker and embalmer. Mrs. Duby lives with her husband over the undertaking establishment in which she will work.

The college of embalming from which Mrs. Duby graduated is a traveling school of embalming which will visit Detroit next May.

Mrs. Duby is 26 years of age. She is a good looking woman, intelligent and energetic and devoted to her chosen business. —Detroit News-Tribune.

Change in the Employment of Women.

In the city of New York, in what may be called the office building district below Chambers street, where the population of a good sized town is gathered tier on tier within the ground area of a common city lot, young women swarm. Morning and evening the streets are crowded with them. Farther up town, for at least a couple of miles, at the same hours a large proportion of the crowds that stream along the streets are young women also, these mostly of what is known as the shopgirl class. These are now common sights of city life, but a man need not be very old—at least I hope not—to remember when the sight of a half dozen young women in the neighborhood of Wall street was a novel and exciting event, and when, in the up town stores, even in those devoted to the sale of the most esoteric constituents of woman's attire, women were found as customers only and were waited upon, more or less skillfully, by persons of the superior sex.

Statistics, as I have said, are not required to prove the change. They are, however, useful to measure its extent. Take the figures of the census of 1890 with reference to the number of those engaged in what are classed as gainful occupations. The total is 22,735,661. It was 17,392,099 in 1880, an advance of 30.72 per cent. The increase in the number of males engaged in gainful occupations was 27.64 per cent, but the increase in the number of females was 47.68 per cent. As the increase in total population for the same period was a trifle under 25 per cent it will be seen how very marked was the influx of women in the income earning occupations. If now we turn to the employments as classified in the census reports, we find the following ratios of increase prevail: Professional services, men 48.53 per cent, women 75.84 per cent; domestic and personal service, men 15.97 per cent, women 41.15 per cent; manufacturing and mechanical industries, men 46.01 per cent, women 62.87 per cent; trade and transportation, men 71.75 per cent, women 263.25 per cent. These percentages would of course be misleading if the totals were disregarded, but they indicate clearly enough the direction in which the change has been going on and the lines on which it has been most marked, while the totals show that women are now a little more than 17 per cent of those engaged in gainful occupations, whereas in 1880 they were a little less than 15 per cent. —Edward Cary in Forum.

Wife on a Wheel.

"Meg" of the Pittsburg Press asks us to sit on the steps and porches these evenings with the women whose husbands and children are all off on their wheels and hear the concerted growl that is going up on the part of the left behind "hausfrau." She gives a reason for it in this way: "The heads of the family are both middle aged or maybe past that age, and 'mother,' with a heart in her breast upon which there are no wrinkles, thinks she would like to ride a wheel, but is persuaded she is too old; that it would be unbecoming in the mother of a family; that the wheel should only be ridden by children for pleasure and by men to facilitate business and save street car money.

"Besides, there are four wheels in the family now, and paterfamilias announces that he is not able to buy out a factory. The grown up son had of course bought his own wheel, ostensibly to ride to his place of business, but in reality to ride out with the girls in the evening. Father of course had bought the grown up daughter a wheel, since all the girls in her set were riding

great truth that whatever is worth doing is worth doing well. When a woman is a member of six charitable societies, she is apt to be the kind of member that always excuses herself from any hard work upon the committees, etc., by saying, "I belong to so many societies, you see, that I really can't undertake extra work." She is quite right in one way, for to keep up with the meetings of six societies is as much as the ordinary woman who has her ordinary duties besides can possibly accomplish. But she is entirely wrong, on the other hand, in belonging to so many when she is useful in none. "The man of one book" has always been recognized as a formidable power; "the woman of one society" is equally needed.

"This one thing I do" is the motto of those who lay foundations and build towers that endure. "I had rather have Mrs. L— on my committee than any other woman in the club," said one wise organizer. "She is not so clever or so widely known as some other members, perhaps, but she has good, clear judgment, and her time and interest are not scattered among 40 other things, as theirs are. She will come to every committee meeting, in the first place, and not have half a dozen conflicting engagements, and when she goes home she will think about it all without being preoccupied by the business matters of any other organization, which is an advantage that cannot be overestimated."

Another equally wise worker, when elected to the presidency of an important society, immediately resigned from two other organizations in which she had been a member so as to give her whole mind to the larger work, and the result fully justified her decision. It is less necessary, in fact, in these crowded times to widen usefulness than to deepen it, and, truly, unless we are remarkably endowed with energy and power, most of us soon spread our usefulness out so thin that its very existence is problematical. —Philadelphia Telegraph.

The New Woman Will Wed.

Dr. Lyman Abbott believes in coeducation. At least he says that the main argument against the mingling of the sexes at college is that "they are apt to fall in love and get married, and that," he asserted in a recent after dinner speech to the Oberlin college alumni, "is a thing of which I heartily approve. I fell in love and got married myself, and I think it was the best thing I ever did. Indeed, if I were addressing undergraduates I am not sure but that I would advise them to elect the study of human nature with one tutor each."

The new woman does not trouble Dr. Abbott either. "While I do not care to see women rushing into the professions," he said, "and becoming stenographers, lawyers, doctors, reporters, and what not, yet I would by no means debar them from that privilege if they so desire. I would have them free to choose for themselves. The idea of forcing them into the home is absurd. If men must corral women in order to marry them, then they'd better be old bachelors. But I believe that social problems will be so worked out before many years that men will be the sole breadwinners, and women will take that place for which they are so well suited and in which they are happy—that of homemakers and homekeepers. For myself, I want to say that whatever of fame has come to me or whatever I have accomplished is due to the wisdom, counsel and inspiration of that angel that has walked by my side. I feel sure, too, that she rejoices more in any honors that have come to me than if they had been bestowed upon herself."

Bridal Wardrobes.

One of the most important events in a woman's life is decidedly her wedding day, and, as most women mean to marry but once, that one wedding dress must make a bright spot in the memory of a lifetime.

The stunning wedding gown is always white. This year it is white satin. It is made with a full skirt, wreathed in Irish point lace, with a nice long train. The bodice is usually made with a fall of lace and wide revers. The sleeves are moderately large and trimmed in lace. The neck is high and massed in lace, and the veil is draped in Russian style, from a wreath of orange blossoms at the crown of the head.

Shower bouquets of roses, sweet peas, orchids and carnations are in vogue, and lately a southern belle started the fashion for jasmine flowers.

A very handsome reticule to be used with a bridal traveling gown is made of violet tinted leather, decorated in a framework of Japanese tortoise shell work and lined with a pale buttercup silk. This is made after the heart design and is carried on the arm.

A handsome going away gown can be fashioned of pearl taffeta silk and pearl jeweled net. The tight fitting Louis XV coat is very pretty for this combination, with the fullness arranged in the stylish godet folds below the waist line. The large revers made of the silk can be covered with the net and turned back from a petal front made of the silk. Leg o' mutton sleeves add grace to the costume, of which the skirt is made full and plain. —St. Louis Republic.

Hats.

Most of the huge round hats piled with gauze or tulle of two different colors, with a basketful of roses intermixed with a big unrefined looking buckle and the whole overspread by a pair of farreaching birds of paradise plumes, are absurd to a degree and look ridiculous above a face either full or slender. It is to be hoped that these decorations will pass into desuetude with the coming of autumn hat garnitures. It is said that aigrets will not be in such favor, for the reason that the royal bride, Princess Maud, has decided to no longer countenance a fashion which causes suffering and death to the nesting heron which provides them. —New York Post.

GET APPETITE

IF YOU DON'T, YOU WILL NEVER BE STRONG OR HEALTHY.

Appetite is one thing that you can't afford to be without it, for without it your health, strength and comeliness flies out of the window.

Poor appetite means weak stomach, starved body, sick individual. Good appetite the opposite.

Poor appetite is a sign that your stomach is too weak for digestion. You can aid it with the Shaker Digestive Cordial.

When your stomach is able to digest all the food that your body needs, you will have a good appetite. Not before. Good food, well digested, means strength and a long, healthy life. Undigested food creates poison which affects the whole body, and may give you headache, dizziness, nausea, constipation, flatulence, languor, weakness, mental depression, stomach-ache, fever, nervousness, offensive breath, anaemia, rheumatism, etc.

All these disorders will be relieved if you will take Shaker Digestive Cordial. It is a pure vegetable digestive and natural purgative, which aids the stomach, purifies the system of the poisons of indigestion and makes you strong, fat and healthy.

Shaker Digestive Cordial does not act on the liver, but on the undigested food in the stomach. It cures indigestion or biliousness without irritating the liver or any of the internal organs. At druggists. Ten cents for a trial bottle.

POLAR EXPEDITION.

Perils That Await the Traveler in the Far North.

News from the polar expedition of Sir Martin Conway explains once more the perils that lie ahead of anyone who ventures into the polar regions. Sir Martin's company in June came upon two surviving members of a crew of four Norwegian sealers, who had met disaster off Cape Staraschin. They stayed too late in the season and the ice came and embraced their vessel. They lived aboard of her until the sun went below the horizon for its six months' trip south. Every day they had fine sport shooting white bears and reindeer, and they thought they could get through the winter alive. But the ship began to break up. They dug a place in the sand of the beach and roofed it over with sail cloth. They gathered their seventy carcasses of reindeer and placed them in a heap, needing no refrigerator. All the coal that was in the ship they transferred to the little hovel and settled down to wait for the end of the half year of night. In January their coal gave out. They knew of a coal seam back on Spitzbergen and set forth one day to find it. After fourteen hours of fast walking they reached a shelter built by some early exploring party. One of the men was so badly frost-bitten that they couldn't proceed farther. Two weeks they waited there for him to recover. Then they were compelled to return to their first camp to get food, leaving as much as could be spared for the sick man.

In endeavoring to return to their comrades they were for twelve days buffeted by bad weather. When they did get back to him they found him in a painful condition. His nose was gone; his feet and hands were black; he was almost dead. They nursed him until their provisions gave out a second time. Crossing the ice they encountered two polar bears, the flesh of which they placed on a rude sledge, and intended to take it to their unfortunate shipmate, but wind and storm were against them, and they say they couldn't succor him. He was left to his fate.

In April the captain, one of the three men remaining, fell sick with scurvy, and soon died. So hard was the ground now that no grave could be dug for him. So he was laid in two old molasses barrels, covered with a sail, and a little pyramid of sticks was set up at his head as a tomb mark.

When Sir Martin Conway's party found the two survivors one of them had scurvy. He couldn't have lasted much longer, for he had been in bed a month, living on biscuits butter and the wild geese that his companion shot.—Providence Journal.

Many political speakers, clergymen, singers and others, who use the voice excessively, rely upon One Minute Cough Cure to prevent huskiness and laryngitis. Its value as a preventive is only equalled by its power to afford instantaneous relief. C. D. Stevens

Possums Eat Watermelons.

Possums are destroying watermelons at White City, Fla., and giving more trouble than the razor back hog, since they cannot be fenced out. "Ne'mine," says Sambo. "Possums he be fat hisself simeby."

What we want is a sound policy, financial and industrial, which will give courage and confidence to all, for under such a policy the money now unemployed for fear of the future and lack of confidence in investment will quickly appear in the channels of trade.

The sick man knocking at the door of health gets in if he knocks the right way, and stays out if he doesn't. There are thousands of ways of getting sick but only one way to get well. Do whatever you will, if you do not put your digestion in good order, and make your blood rich and pure, you will not get well. Rich, pure blood is the only thing that can bring perfect health. Constipation is a disease of the blood. A large part of all diseases are traceable directly to impurities in the blood, and can be cured by eliminating them with Dr. Pierce's Golden Medical Discovery. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites a copious secretion of the digestive fluids and promotes assimilation. It searches out disease germs wherever they may be, kills them and forces them out of the system. The "Golden Medical Discovery" has been used with unvarying success for over 30 years.
